**Berths** – The number of sleeping spaces in the vehicle.

**Licence** – The driving licence needed to legally drive the motorhome. A 3500kg motorhome or campervan can be driven on a standard UK Category B car licence.

**Maximum Technically Permissible Laden Mass (MTPLM)** – Maximum legal weight when fully loaded.

**Max Payload** – Weight you can add to the vehicle.

**MRO** – Weight as supplied from the factory plus a 75kg allowance for the driver, engine coolants, Adblue & windscreen washer fluid at 100% full, fuel tank at 90% full and 10kg allowance for LPG.

<sup>Δ</sup> The 1200 campervan automatic option increases the MRO by 20kg and decreases the Max Payload by 20kg. The 1200 Driver's Pack option increases the MRO by 16kg and decreases the Max Payload by 16kg. See website for more details.

<sup>T</sup> The pop-top bed option increases the berths by 2. Pop top models increase the MRO by 130kg and decreases the Max Payload by 130kg. Pop top models have a height of 2.79m / 9'2" (pop top roof down).
